

Beauty-Brush™

The Perfect Make-up Applicator

Beauty-Brush™

Beauty-Brush is a hygienic, disposable brush to aid in cosmetic applications. With its non-lint fibers, **Beauty-Brush** is ideal for many uses.

Liquid Lipcolor/Liquid Lipliner. Traditional lip brushes tend to be overly flexible and may result in loss of control. The firmness of **Beauty-Brush** fibers makes creating an even, neat lipline simple.

Naturally Accentuate Lipline. With **Beauty-Brush**, gently shape lips by lining the outer edge of the lip for a fuller look. Draw with **Beauty-Brush Small** to create a super fine line. Slightly angle the **Beauty-Brush** to create a fine line. For a thick line, use **Beauty-Brush Medium**. For larger applications, use **Beauty-Brush Large**.

Liquid Eyeliner. For those reluctant to use liquid eyeliner, **Beauty-Brush** is an easy to control, welcomed brush with perfect results.

Nail Polish Removal. Use **Beauty-Brush** for exact polish removal for hard to reach, close to the nail areas of the skin and cuticles without touching freshly painted nails.

Cuticle Area. **Beauty-Brush** can be used to firmly but gently push back or remove oiled cuticles.

Mixing and Blending of Cosmetics. **Beauty-Brush** is great for blending small amounts of cosmetics well. Larger brushes may not blend small amounts as thoroughly.

SIZES: Small **Black**. Medium **Purple**. Large **Teal**.
CONTENT: 40 brushes total. 20 per dispenser.
